## LOCAL NEWS.

Inspector Tyfo was a visitor on Friday at the local public school.

W M Washburn M. L. A., was in Calgary over the weekend, attending a meeting there of United Farmers.

Mrs Aysonough (nee Webb) a former resident of Stony, but now matron at the immigration hall, Edmonton, was a visitor to Stony on Saturday.

Mr Henry Trapp, who has been an inmate for the past few weeks of the isolation hospital, Edmonton, will arrive home tomorrow.

No contract has been let yet for brushing the town's 80-acre park site, as the tenders submitted at last meeting of Council were thought to be too high.

The old firm of H Oppertshausen & Sons will shortly undergo a change in its personnel. After 20 years' steady work at the hardware business as senior member of the firm, Mr Henry Oppertshausen Sr. has definitely decided to retire.

City-bound passengers on the railway had some little difficulty adjusting themselves to the new train service, as such a short notice of the change had been given. There is no afternoon train to the City.

The annual bazar of the Union Ladies' Aid was held in the Town Hall, Saturday, Nov. 20. There was a variety of sewing and fancy work and home cooking for sale. The afternoon tea was well patronised.

As usual, the dance given by the Girls' Club on Friday night was well patronised. Ron Joslin's musicians provided the music, and all present had an enjoyable time.

The weather being favorable for the purpose, curling fans were successful in putting the initial ice layers on the rinks at the local sheds, and the eager ones took a fling of the rocks away down the ice.

Mr Speakman now has his grain crusher in full operation. This is the largest machine in the town, with a capacity of 80 bags an hour.

Mr James Warner moved back, last week, to Stony, and was welcomed by his old neighbors. Previous to leaving Holborn, he was the recipient of a very useful package. Jim won't tell what it was, but admits "it took a devil of a lot of unwrapping afore I got to the container. Fortunately, I had my cork-screw along!"

At the local Court on Saturday a wage case from Gramin, Humphrey v Jones, was given a hearing. R D Tighe of Edmonton appeared for the respondent, and F W Lundy for the claimant. A wagecase, Jornsbusch v White, had been settled out of Court. Another wage case, Duda v Myer, was called, but the respondent failed to appear.

Over 30 years a standard wherever good tea is liked.

## Taxation In Canada

During the war Canada, like all countries, was forced to devise and impose new forms of taxation in order to raise the large sums of money required to enable the Dominion to victoriously and successfully discharge its national obligations. That titanic struggle lasted so long, and the expenditures incurred were so great, that a huge national debt resulted, and since the Armistice interest on that debt has had to be paid, while large expenditures for pensions and the care of disabled soldiers continue to be necessary, Canada, therefore, must raise a large revenue for Federal purposes.

But this is not all. The war caused inflation of prices in all commodities, and, of course, revenues, which formerly were adequate for provincial and municipal purposes were too small, and on top of higher Dominion taxation there had to be imposed greater taxation by Provincial and municipal governments.

The effect of this taxation is greater in Canada than in the United States because this country entered the war at the beginning, whereas the United States only came into it near the close, and after years during which that country amassed great wealth in the work of supplying goods to the Allied countries which had turned their whole industrial fabric from works of peace production to the requirements of war.

Prior to the war Canada was a low taxed country, but war needs brought about the imposition of an Income Tax, a tax on bank dividends, profits, interest, etc., a tax on receipts, taxes on matches and other commodities, an increased rate of postage, taxes on excise profits, taxes on business turnover as represented by sales, and sundry other taxes. The accumulation of all these taxes has, naturally and inevitably, had an adverse effect on investment in industry and for development purposes, and in the willingness of both foreign and domestic money lenders to invest in Canada. Further, the necessity of investing huge sums in Government loans during the war resulted in the withdrawal of hundreds of millions of dollars from other forms of investment, to the detriment of all business, industrial growth, and development of the natural resources of the country.

With its tremendous accumulation of wealth during the war, and the wonderful expansion in production and industrial activity since then as a direct result of that accumulation of wealth, the United States has been enabled to rapidly decrease its Income Tax and lower, or entirely abrogate most of its war taxes. This has created a great disparity in the burden of Federal taxes imposed on the people of these two countries; to the manifest disadvantage of Canada. On the other hand, Canada compares very favorably with the United States when Provincial and Municipal taxation is compared.

There is, however, a growing demand throughout the Dominion that, if this country is not to seriously suffer in the long run, some action must be taken to lower the burden of Federal taxation so as to place the Dominion on terms of greater equality in this respect with our neighbor to the south. Just how this is to be accomplished, and at the same time provide the Federal Government with the revenue it must have, to meet our war obligations and current domestic needs, is the problem.

To the solution of this problem the Dominion Government is directing its attention, and, fortunately, the people as a whole, are taking a very keen and increasing interest in it. This interest is made manifest in the discussions which took place at the recent convention of the Canadian Board of Trade, in the publications of the Citizens' Research Institute of Canada, in the Dominion-wide campaign recently inaugurated by the Retail Trade Bureau of Canada, and by the resolutions adopted by the Canadian Council of Agriculture representing the organized farmers.

While all these bodies are in agreement on some points, they are at variance in important respects as to policies which should be adopted. All strongly favor more economical administration, the elimination of partisanship and politics from the business of government, reduced expenditures, and a more careful survey of national conditions before embarking on future capital outlays, all of which will make for lower taxation. But they differ when it comes to the question of just what taxes should now be entirely eliminated. There are two sides to these questions, as there are to most issues of outstanding importance, and it will be of value to consider these in a subsequent article.

The present gratifying fact is that a step has been taken in the direction desired by all, namely, reduction of taxation. The present year has seen the excess war postage rates wiped out, the tax on receipts repealed, the tax on bank cheques for small amounts removed, and a substantial reduction made in the Income Tax, especially on smaller incomes. Furthermore, the Finance Minister has announced that further reductions will be shortly forthcoming, and press dispatches have reported that he has ordered a survey by departmental officials of the operation of the Income Tax and Sales Tax, and their effect on business and the country's development in general, with a view to guiding the Government in the preparation of the next budget.

## Hiring Help In London

"Want" Ads Show Maids Are Accorded Many Privileges

No nagging, no week-end vacation, plenty of fresh eggs and bacon, radio and the use of an automobile are all inducements offered by wealthy London women in search of domestic help as difficult to get these days. Here are a few "want" ads from London newspapers.

Housemaids—Ten weeks holiday in the year with board and wages, 50s. 6d. per week and 10s. 6d. per year for coal and gas.

House painter-maid—Electric light and central heat throughout, also radio. Outings assisted by car if desired.

Maid—Good cuttings, also whole day and night every three weeks. Plenty of fresh eggs and bacon.

Cook-general—Good outtings and week-end once a month. No nagging. Cook-general—Help given, good wages and outtings. Own bathroom, heat, light and radio.

Upper housemaid—Dress materials and valuable presents given. One room furnished to suit.

## To Relieve Catarrh Catarrhal Deafness And Head Noises

If you have catarrh, or catarrhal deafness and have buzzing, ringing noises in your head, ears, and throat, with or without, unclean, unwholesome, but go now to your nearest druggist and ask for an inexpensive package of Grog Wormwood Balm.

No atomizers, no syringes and nothing else. Rub this balm, fragrant balm right into the ear, and the head noises, relief: choked nostrils quickly open up, the head noises, head noises vanish and the annoying mucus stops dropping from the nose. It is a simple, pleasant and inexpensive home treatment that anyone bothered by head or ear catarrh, deafness should give a good trial at once. All good druggists at trifling cost.

## Spiritualism In Britain

Growth of Movement Sponsored by Sir Arthur Conan Doyle

An impressive belief in spiritualism was registered at the spiritualist's annual armistice service in Albert Hall, London, when eight thousand were present.

Sir Arthur Conan Doyle, leading the services, suddenly appealed to his hearers, shouting: "I ask all who are sure that they have been in touch with their dead to rise and testify."

More than 2,000 men and women of all types quietly rose and this brought from Sir Arthur this fervent statement:

"Thank God there are so many. I prophesy within five years that to such an appeal every man and woman will rise."

"We are not testifying to faith but to fact."

The growth of the belief in spirit communication, so persistent as evidenced by Sir Oliver Lodge and Sir Arthur Conan Doyle, has apparently been extraordinary.

In the course of his address Sir Conan said: "We may here in mid-London and in cold blood, and pledge our honor that this is true. We feel we are addressing those we have lost, and hold out our hands to them, not as shadow beings in an unknown life, but just the same light hearted, merry fellows we lost. They are not lost, but are nearer to us than ever they were below."

Miss Estelle Stead, formerly editor of the Review of Reviews, the Rev. George Vale Owen and other well-known spiritualists were among the speakers.

Mr. Ashima, Too. The efficacy of Dr. J. D. Kellogg's Asthma Remedy is not something that is merely to be hoped for; it is to be expected. It seldom fails to bring relief, and in your own individual case it will do the same. So universal has been the success of this far-famed remedy that every one afflicted with this disease owes it to himself to try it.

## Alberta Fisheries

The summer fish catch on Lesser Slave Lake was good, according to R. T. Rodd, Commission Fisheries Inspector at Edmonton, who states that more than 650,000 lbs. of whitefish were taken out of the lake with 468,711 lbs. of pickerel, 319,342 lbs. of pike and smaller quantities of other fish.

It's easy for a rich man to die poor. All he has to do is acquire the lawsuit habit.

Minard's Liniment For Colds.

W. N. U. 1666

## Montreal Man Wins Way Back To Health

Suffered for Months After Severe Attack of La Grippe, With Insomnia, Nervousness, Indigestion And Coughing. Found Relief.

Like thousands of others, Ernest Deland, proprietor of Deland Barber Shop, 194 Laurier West, Montreal, found long-sought relief from intense suffering in Tanlac.

Mr. Deland says: "At the end of a two-month attack of La Grippe, I was so completely wrecked that my friends nor myself thought I would ever get well. For weeks I could not sleep."

"Pain in my lungs, shortness of breath, choking sensations and a nagging, wracking cough made life almost unbearable. Finally I was persuaded by a friend who was benefited by Tanlac to try it out."

"I was able to get up and move about the house after taking two bottles of Tanlac, and by the time I had finished the seventh bottle I was able to return to work."

"I have an excellent appetite, sleep well, and have gained 11 pounds, I feel fine in every way. It is with pleasure that I recommend Tanlac to anyone suffering in Tanlac."

Tanlac is for sale by all good druggists—more than 40 million bottles have been sold. Get this marvelous tonic made according to the famous Tanlac formula, from roots, barks and herbs, help bring you robust health and vigor, as it has to thousands of others. Ask for it by name.

## May Continue Burbank's Work

California Trying to Raise Funds to Purchase Scientist's Farm

Plant experiment work of the late Luther Burbank will be carried on if movement on foot in California to raise \$100,000 is successful. The fund would purchase the famous scientist's Sebastopol farm, north of Santa Rosa, and make it a monument to his memory. Officers of Stanford University admit that the plan is to turn over the farm to the university. Shortly before his death Burbank expressed a wish that the farm be turned over to Stanford University so that his experiments could be carried on.

## Not Such a Bad Thing

Many of Really Great People Have Been Misunderstood

The whine of the world is: "I am misunderstood." Pooh-pooh! Everybody is. It's a good thing that many of us are misunderstood. Thus we pass for knowing more than we do, Emerson had something to say about that. He said: "Misunderstood! It is a tool's work. Is it so bad, then, to be misunderstood? Pythagoras was misunderstood, and Socrates, and Jesus, and Luther, and Copernicus, Galileo, and Newton, and every pure and wise spirit that ever took flesh. To be great is to be misunderstood."

For Headache

**BAYER**

**ASPIRIN**

Proved safe by millions and prescribed by physicians for

## Experiments In Hemp Growing In Western Canada Prove That Industry Is Practicable

Investigation and experiment in hemp growing in Western Canada, which was progressing favorably before the war, was brought to a standstill with the outbreak of hostilities and was not resumed for some time afterwards. Recently, however, work prosecuted energetically by the Development Branch of the Canadian Pacific Railway in co-operation with the Department of Agriculture of the Dominion Government and the Department of Natural Resources of the same railway, has further established the suitability of the lands of the irrigated sections of Southern Alberta to this crop and paved the way to industrial manufacture involving the use of hemp. There would now appear to be no reason why the Prairie Provinces should not have a hemp-growing industry and engage in the manufacture of products now imported into the Dominion to the extent of some five million dollars annually. Careful analysis of the exhaustive work of experts fully justifies the conclusion that the hemp industry in Western Canada can be made a commercial and industrial success.

After preliminary experiments in 1924, three acres of hemp were seeded in 1925 in the irrigation block at the St. Julien Colony, east of Calgary, at Tilly, Alberta. The three acres were subjected to different irrigations though the exceptional rainfall of the season largely equalized the effect of these inundations. The full results of the experiment carried out by the above-named organizations have now been made available and are in every way gratifying and encouraging.

At harvest, the stand of hemp was described by experts as a "bumper crop" of exceptional quality. One acre was cut and left in bundles on the ground to test the retting effect of exposure during the winter and spring. On examination in the following spring, it was found that though the hemp had not been spread, the outside bundles where exposed to the winter weather had been sufficiently retted. It was concluded that if properly spread on the ground under normal winter conditions, the hemp could be sufficiently retted in this manner. One acre was cut, spread to dry for about ten days, and then shipped to a mill at Forest, Ontario. One acre was cut and spread for retting. It was intended to irrigate this after spreading, but the unusually wet season made this unnecessary. This hemp received an excellent ret on the ground where it was grown and was then shipped to Forest for scutching.

Shipments from the two acres shipped to the mill at Forest yielded 1,075 lbs. of dressed hemp, 108 lbs. of fine tow, and 145 lbs. of targeted tow. The fibre shipped to the mill at Forest was manufactured into a number of different grades of commercial twine, for which it proved entirely satisfactory. A total of 780 lbs. of twine hemp was produced, 450 lbs. being grade A, 550 lbs. grade B, and 30 lbs. dark hemp. The Alberta hemp, it is stated, graded equal to Italian F.B. hemp or Wisconsin hemp, which at prevailing prices would make the Southern Alberta product laid down at an eastern manufacturing plant worth about 12c a pound.

The successful results of these investigations and experiments open up great agricultural and industrial possibilities for Southern Alberta. The situation is ripe for commercial enterprise to take hold. A central hemp mill must be established and a sufficient acreage guaranteed for its operation (say 200 acres for a moderate sized plant) before the farmer can receive any return for putting in a hemp crop. The operation lends itself to co-operative organization among farmers within a suitable hauling radius. An elaborate and complete analysis of the cost of production, mill operation, etc., has been prepared by the Development Branch, Department of Colonization and Development, Canadian Pacific Railway, Montreal.

**Saskatchewan Wool Crop**  
Shipments of Saskatchewan wool are rising in volume. For the season to date 560,000 lbs. have gone forth as compared with 440,000 during the same period of 1925.

W. N. U. 1656

### Many Immigrants Arrive

**Immigration to Canada for First Nine Months of 1926 Shows 66 Per Cent Increase**

Immigration to Canada for the first nine months of the calendar year 1926 shows an increase of 66 per cent over the same period a year ago, according to a statement issued by the department of immigration and colonization.

In the nine months, January to September, inclusive, immigration to Canada amounted to 112,835 as compared with 67,878 for the same nine months in 1925. Of the 1926 immigration 41,419 were British, 16,776 from other countries, a total of 15,409 from the United States and 54,640 from other countries.

The returns show substantial increases in all three classifications.

During September, 1926, immigration to Canada consisted of 4,152 British, 1,990 from United States, and 6,287 from other countries, a total of 12,429 compared with 4,656 in the same month a year ago. For August the immigration of 4,125 British, 2,555 from the United States, 7,269 from other countries, a total of 15,946 compared with 9,812 for August, 1925.

### Saskatchewan Industries

**Ten Industries Produced Goods to the Value of Over Twenty-six Million Dollars**

According to final statistics the ten leading industries of Saskatchewan produced goods to the value of \$25,048,000 in 1924—an increase of \$3,279,221 over 1923. The ten leading industries are: Flour, butter and cheese; printing and publishing, electric light and power; bread and bakery products; planing mills; cash and door factories; dyeing, cleaning and laundry work; aerated and mineral waters, and sawmills. Business concerns covering this broad field numbered 524 in the year in question, with a combined capital of \$22,134,301.

### British Boys Coming

**Will Attend Alberta Agricultural Schools This Winter**

More British boys are coming to attend the Alberta Agricultural Schools this winter. About 70 are expected, of whom 12 are already on the way, according to Provincial Government advice. The boys will be divided among the schools at Olds, Charaholm and Raymond. Next spring the Federal Government will undertake the placing of these boys when they reach Canada after their five months' training. The boys come to this country under the assisted passage scheme of the British Government.

### Should Not Be Delayed

**Farmers Are Entitled to Adequate Protection Against Fire**

To the farmer has come in recent years the telephone, the motor car, the radio, hydro-electric energy, the rural mail delivery and other conveniences to make his life less lonely and to remove many of the disadvantages of living in the country. Among many of the advantages that have not yet come his way except in a few communities, is protection against fire. And we wish to point out that there is no reason why this should be long delayed.—Simcoe Reformer.

**B.C. Tree Seeds Shipped To New Zealand**

The largest shipment of tree seeds ever made within the British Empire was that of 3,200 lbs. of yellow pine seed sent from New Westminster to New Zealand by the Dominion Government seed extraction plant at the former place. A further cargo of 2,500 lbs. of seed is to follow shortly. This seed will be planted on waste lands in New Zealand.

**B.C. Lumber For Britain**  
"British Columbia Houses, Ltd." is the name of a new company capitalized at \$100,000; the object being to engage in export of mill cut lumber for erection of houses in London, England. Land has been purchased in England for the site of these dwellings.

### Use Of Fertilizers

**Manure for Grain Crops in the Prairie Provinces**

Farmers in the prairie provinces have not hitherto been required to consider very seriously the fertility of the soil, but with the livestock population in that region constantly increasing, the question arises as to the most effective use of manure. With the object of determining the value of various manures for wheat, oats and barley and the proper time and method of applying it, a series of experiments have been conducted at the Scott, Sask., experimental station. The results of these experiments are detailed in the latest report of the Superintendent of the Station, which may be obtained from the Publications Branch, Department of Agriculture, Ottawa.

In all the experiments the manure was applied at the rate of 12 tons per acre. In the experiments with wheat, which have been conducted for eleven years, rotted manure applied previous to ploughing summer fallow has increased the average yield of the first crop by three bushels per acre in one experiment and seven bushels in another. Applying rotted manure, previous to spring ploughing has given a higher average yield than previous to fall ploughing, but part of the higher yield is no doubt due to the time of ploughing, as spring ploughing has consistently given the highest yield at the Scott station. Fresh manure applied in winter has not increased the yield of wheat materially.

In the case of oats, fresh manure applied in winter on fall ploughing increased the yield by 10.1 bushels per acre. Rotted manure applied after seeding on fall ploughing increased the yield 5.2 bushels per acre, and applied just before fall ploughing brought about an increase of 10.2 bushels. As for barley, the highest increase of nine bushels per acre was obtained by applying rotted manure just before fall ploughing.

The results therefore indicate that manure is most valuable when applied in a rotted condition just before ploughing rather than after ploughing or after seeding.

### Good Market for Flax Straw

Flax straw is in considerable demand in the United States and is moving from Saskatchewan across the border. Minneapolis manufacturing concerns are finding the local flax straw supply insufficient and are extending their purchases into Manitoba and Saskatchewan. Farmers who have flax straw are being advised to hold their stacks as prospects are good for finding a market for large supplies.

## Shelter Belts Planted by Farmers Of Western Prairies Have An Estimated Value of \$60,000,000

### Plenty Of Irrigation Projects

**More Room for Irrigation Development in Alberta**

That there is in Southern and Central Alberta plenty of room for more settlers on irrigation projects is disclosed in a report for the year 1925 on irrigation development in Alberta by the Department of the Interior. In this report the irrigable area is set at 1,237,080 acres and the irrigated area at 124,072. In addition to these larger projects there are 494 small individual schemes within the province for which water has been appropriated. The combined irrigable area in these smaller schemes is about 60,000 acres.

### Homestead Land Available

**Entries in Prairie Provinces Continue on a Large Scale**

Homestead entries in the four western provinces of Manitoba, Saskatchewan, Alberta and British Columbia, continue on a much larger scale this year than last. September's entries, as reported by N. O. Cote, Controller of the Department of the Interior, were 364 or an increase of 125 over the same month last year. Saskatchewan heads the list with 189 entries, as against 92 last year; Alberta comes next with 118, as against 107; Manitoba shows 48, compared with 29 last year, while British Columbia dropped from 11 last year to 9 this.

### Returns From Saskatchewan Crops

**Farmers received Total of \$534,006, 490 From 1925 Crops**

Saskatchewan farmers in 1925 took in \$524,806,490 from the sale of grain, field crops and livestock, according to the annual report of R. W. Neely, statistician for the Provincial Department of Agriculture. The gains, including flax, made up \$351,250,000 of the total field crops—peas, beans, potatoes, roots, corn, hay, clover, alfalfa, etc., brought \$1,675,000; farm products, including butter, cheese, milk wool, furs, poultry, etc., added another \$26,017,450 and livestock \$135,117,900.

In order to forecast the weather with a reasonable degree of accuracy you have to do is predict anything you don't expect.

### English Peer Concludes Visit

The Earl of Elgin and Kincardine has been tremendously impressed with what he has seen of Canadian development during his recent visit to the Dominion, at the invitation of the National Council of Education, Lord Elgin, accompanied by Lady Elgin, arrived in Montreal recently on the

Canadian Pacific Railway private car "Wentworth," and together were met by representatives of the Council of Education and Elgin Lodge No. 7. Lord Elgin recalled his first visit to Canada, at the invitation of the National Council of Education, Lord Elgin, accompanied by Lady Elgin, arrived in Montreal recently on the

According to a report of the Dominion Forestry department the farmers of Western Canada have during the past twenty-five years planted trees at the rate of 10,000 a day. If all these trees had grown the prairies would present a forest aspect today. Unfortunately many of them died before they got a fair start in life.

However, it is gratifying to learn that as a result of this effort the tree line has been pushed at least 100 miles further west and that the shelter belts planted by prairie farmers have an estimated value today of \$60,000,000. That is an encouraging result for a quarter century of painstaking effort.

From the time the government engaged the late Alexander Mitchell as its prairie tree planting representative and gave him a free hand to travel the country over with his demonstration forestry exhibits, there has been a marked difference in the attitude of the people concerning trees. Alexander Mitchell died, but the work he started will never stop. It may move more slowly, but always there will be steady increase in the number of tree and shrub-sheltered farmsteads spread over the land which Mr. Mitchell loved and labored for.

If there is a qualified man available to take the late Mr. Mitchell's place the government should not hesitate a moment in engaging him to carry on the noted tree-planter's work. Not in our time, but eventually, a continuance of the tree planting campaign will bring about a veritable transformation in our whole prairie territory, to the great betterment of agriculture and the great advantage of the people whose homes are here—Calgary Herald.

### Jewish Settlers

**To Operate Training School for Young Jewish Farmers in Alberta**

The establishment of a training school in central Alberta for young Jewish farmers, similar to that being operated in the East under the auspices of the Federated Jewish Farmers of Ontario, is the aim of F. Newman of Edmonton, who is organizing a western committee to assist in the settlement of numbers of his countrymen on farms in this province. The Ontario project, which has been supported by Jewish capital, is said to have been very successful and a number of students have already been trained and taken up land of their own.

### Manitoba Honey

**One Apiary Produces Thirty Thousand Pounds This Year**

The bees were busy in Manitoba this year, living a crop of honey 20 per cent larger than that of last year, according to L. P. Floyd, Provincial Apiarist. During the year 250 new bee-keepers were added to the roster, swelling the list to 2,250 members. One apiary produced 30,000 lbs. of honey, while one hive in central Winnipeg furnished 160 lbs. of marketable honey.

### Fish Freezing Plant

The first plant in Canada, outside of British Columbia, for the freezing of fish, poultry and eggs under the Otton process, will be operating in Edmonton by June 1st, according to P. Johnson, managing director of the Johnson Fisheries, Limited. His firm paid \$10,000 for the rights of the territory. The initial capacity of the plant will be fifteen tons a day.

### Alberta Oil Wells

The Stockmen Oil Well has struck a flow of gas at a depth of 1,554 feet in the north-west corner of Turner Valley, in the Vulcan well, in the same valley, the flow of gas is now swollen by 250,000 cubic feet per day with drilling at the 4,561 foot level. Vulcan's total flow of gas is now 2,550,000 cubic feet per day; the gas is wet and drilling is cautious.

### Proposed Jam Factory

A proposal to construct a large dehydrating plant, jam factory, and vinegar, and cider mill, at Kaleria, B.C., to take care of waste fruit products of the district is being considered by the municipal council.

## When You Tint Use Real Dyes!

When tinting dainty underwear, silk stockings, or any fine fabric use *real dyes*. That's the only way you can get the same beautiful, soft shade materials have when new.

Just some pieces tonight, with real Diamond Dye—you'll see the difference! No one will dream they were tinted at home. And you can do real dyeing with just as perfect results, if you will just use the true Diamond dye.

**FREE** why not ask your druggist for the very useful Diamond Dye Cyclopaedia? Valuable suggestions, easy directions, and piece-goods sample cards. Or write for free copy of Color Card, a big illustrated book sent post-paid—address: **DIAMOND DYES**, Dept. N15, Windsor, Ontario.

Make it NEW for 15 cts!

## WORLD HAPPENINGS BRIEFLY TOLD

Major Charles William Orr, colonial secretary at Gibraltar, has been appointed governor and Commander-in-Chief in the Bahamas.

Dr. Franz Exner, famous as a physicist, died in Vienna recently. He was noted for his calculations of the size of molecules and other achievements.

Formosa's 120,000 head hunters have not caused the Rev. Thomas Barclay to lose any sleep in all his 52 years as a missionary on the island, and he has gone back to his work after six months leave in England.

Canada's total area estimated as sown for wheat up to October 31 last for the season, 1927, excluding British-Columbia, is 887,000 acres, as compared with 992,600 acres, the area sown in 1925 for 1926.

Reckless automobile driving cost the lives of 70 persons in Canada in October and injuries to 50 others. Forty crossing accidents were reported, in 31 of which automobiles were involved.

The eighth Canadian egg laying contest is being conducted at the experimental farm, Ottawa. The contest is made up of eighty pens. The entries again cover a very wide range, the West being represented as follows: British Columbia, 11 pens; Alberta, 2 pens.

## BLOOD WILL TELL

In your grandfather's time a man lived a vigorous, out-door life. The red blood of courage was in every line of face and showed in every muscle of his body.

Strength of body and strength of purpose mean success.

## Get DR. PIERCE'S Golden Medical DISCOVERY

That Reliable Herbal Tonic, from your nearest druggist, in either fluid or tablets.

It will aid digestion, make your blood richer and you will be ready for any task that may confront you.

W. N. U. 1066

## Electric Ocean Liners

Electric Propulsion is Coming According to Authority on Marine Matters.

Ocean liners, propelled by powerful electric engines that will permit control as positive as that of automobiles, were predicted by W. T. Thau, noted authority on marine electric propulsion, in addressing the convention of the Society of Naval Architects and Marine Engineers in New York.

Electric propulsion, he said, will eliminate the necessity of engine room signals and place absolute control of the vessel on the ship's bridge, resulting in a reduction of operating expenses and increased safety.

## Salvage Work Progressing

Sixty-three of German Vessels Raised at Scapa Flow

Salvage work on the scuttled German fleet at Scapa Flow progresses steadily. Messrs. Cox and Danks lifted the G40 recently bringing the number of destroyers raised to sixteen. Sixty-three vessels have been raised by them so far.

There are only three more destroyers of this type, weighing 750 tons, to be salvaged. The remaining seven destroyers weigh 1,300 tons.

No matter how deep-rooted the corn may be, it must yield to Holloway's Corn Remover if used as directed.

## A Simple and Practical Girls' Dress

If you are thinking of making a new little frock for your young daughter, you will find this neat design very simple to fashion. The dress has the popular kimono shoulders, and long sleeves gathered to narrow wristbands. The neck has a front opening and is finished with a neat round collar. An inverted pocket at each side of the skirt gives added width, and a belt and patch pocket complete this trim little dress. No. 1846 is in sizes 6, 8, 10, 12 and 14 years. Size 8 years requires 2 1/2 yards 36-inch, or 1 1/2 yards 54-inch material. 20 cents.

Our new Fashion Book contains many styles showing how to dress boys and girls. Simplicity is the rule for well-dressed children. Clothes of character and individuality for the junior folks are hard to buy, but easy to make with our patterns. A small amount of money spent on good materials, cut on simple lines, will give children the privilege of wearing adorable things. Price of the book 10 cents the copy.

## Food! Felt Like

## Vinegar In Stomach

Brooklyn, N. Y. Mr. A. Arnetan says:—"No matter what I ate, it seemed to turn to a vinegar like acid as soon as it went down. I was bilious, belched gas, and acids rose in my mouth. Appetite was poor. I took Carter's Little Liver Pills for just one week. This certainly was a fine remedy for me."

Treat a constipated condition in a sensible manner, cause the bowels to move daily free from pain. Carter's Little Liver Pills are for every member of the family. Small, sugar coated, easy to take.

Druggists, 25 & 75c red packages.

## British Nation's Income

Estimated Average Is Over One Pound Per Week for Each Person

The estimated income of Great Britain, say the Inland Revenue Commissioners, is now 2,600 million pounds, over £1 a week for every inhabitant. Of this amount the Inland Revenue took 510 millions in income tax, super tax, and death duties. Super tax was paid on incomes over £200 by 87,000 people, and 124 of them had incomes of £100,000.

Death duties were paid on 106,000 estates; but 26,000 of these were £300 or less. One estate was over three millions, and there were 12 between one and two millions.

## NEGLECTED ANAEMIA

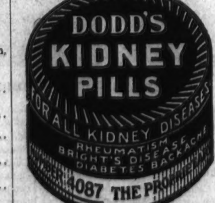

Often Leads to a Decline—Enrich the Blood by Taking Dr. Williams' Pink Pills.

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by rapid growth that anaemia develops. The first signs may be noticed by peevishness, languor and headaches. The face grows pale, breathlessness and palpitation follow, with low spirits.

At the first symptom of anaemia mothers should act at once. Neglected anaemia often leads to decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure, red blood created by these pills will quickly banish all signs of anaemia. They will build up your girl's health and ensure her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now. Make her strong like thousands of girls who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills. Here is a bit of proof. Miss Mary Venditti, Catawamp, N.B., says:—"Three years ago while attending a convent, I studied very hard to graduate. The result was I became very nervous and got so thin and pale my teachers thought they would have to send me home. I took different kinds of medicine which gave me no relief, but my condition remained unchanged. At last one of my teachers gave me a box of Dr. Williams' Pink Pills, and I had hardly finished it when I could feel an improvement in my condition. I continued the use of the pills for some time longer, and I can hardly tell all the good they did me. I gained in strength and weight, and the color returned to my cheeks, and at the end of the term I graduated. I never fail to recommend Dr. Williams' Pink Pills to my friends and acquaintances when a tonic is needed."

"You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

A Scotsman, invited to a golden wedding, was told that each guest would be expected to take a golden present. He took a goldfish—London Tit-Bits.

## Wheat Pools Sell Most

Over Fifty-two Per Cent of Crop Handled by Pool

The Canadian Co-operative Wheat Producers Ltd., the Central Selling Agency of the Alberta, Saskatchewan and Manitoba Wheat Pools handled in the crop year ending August 31st, 1926, 187,500,000 bushels of wheat out of a total of 357,500,000 bushels actually delivered to all agencies, private and co-operative. This handling by the Pools is over 52 per cent of the total deliveries.

On the basis of No. 1 Northern Wheat at Fort William, Ontario, initial, two interim, and final payments were made amounting to \$1.45 per bushel. From this, deductions were made for freight to Fort William from the shipping point, elevator charges to reserve, commercial reserve and operating expenses. The net price, therefore, depended on the freight charges, the grade, and how the wheat was delivered; elevator reserve; commercial reserve and operating expense; being the same per bushel for all.

## HAD BAD SPELLS WITH HER HEART

Mrs. R. G. Hall, Bolton Centre, Que., writes:—"Some time ago I had had spells with my heart which I believe was caused by nervousness. I tried everything I could think of, but could get no relief until one of my friends persuaded me to get a box of

After I had taken a few boxes I got wonderful relief.

I now weigh one hundred and thirty-five pounds where, before, I never went over ninety."

Price 50c. a box at all druggists or dealers, or mailed direct on receipt of price by The Milburn Co., Limited, Toronto, Ont.

## Taking Her Revenge

It was growing late when the hostess, at the request, requested the eminent tenor to sing.

"It is too late, madam," he protested. "I should disturb your neighbors."

"Not at all," declared the hostess, beaming. "Besides, we are here for something. They poisoned our dog last week."

As a vermouth an excellent preparation is "Mother Graves' Worm Exterminator." It has saved the lives of countless children.

## Balmoral Castle Improved

Made More Comfortable Than in Queen Victoria's Time

Balmoral Castle has changed a good deal since the Victorian era. It is now by no means the comfortable place it was when King Edward vowed that "one could catch a different kind of cold in every room." Edwardian improvements were many, and in recent times Queen Mary's abode mind has dealt with the Castle's problems, and both the Royal family and the staff are said to be as comfortable in Balmoral as in any of the Royal residences. The reason why the Prince of Wales seldom visits Balmoral is said to be due to the fact that neither fishing nor shooting makes a strong appeal to him.

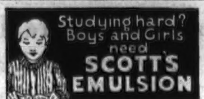

Cheapest of all Oils.—Considering the qualities of Dr. Thomas' Electric Oil it is the cheapest of all preparations offered to the public. It is found in every drug store in Canada from coast to coast and all country merchants keep it for sale. So being easily procurable and extremely moderate in price, no one should be without a bottle of it.

## New Advertising Stunt

Candy Company Dropped Chocolate Bombs Over Berlin From Airplane

Chocolate bombs dropped from airplanes as an advertising stunt by a Berlin candy company have bruised so many pedestrians that the police have halted the sweet bombardment. The company had been sending up two planes on Sundays. Every park, beer garden or street in which the fliers chanced to spot a crowd was bombarded with hard chocolates, wrapped in heavy foil, from an altitude of about 100 feet.

Physicians use Minard's Liniment.

Studying hard? Boys and Girls need **SCOTT'S EMULSION**

Don't Neglect Bronchial Colds Pneumonia, "Flu" and other dangerous maladies develop from common colds. To prevent trouble take Buckley's Mixture. It quickly relieves the Cough and removes the cause. Different from all other remedies. No expectorant. Combination of proven virtues. Sold by all druggists and grocers.

W. E. Buckley, Limited, 141 Mutual St., Toronto.

## SUNDAY SCHOOL LESSON

NOVEMBER 28

GIDEON AND THE THREE HUN.

DEED

Golden Text: Be strong in the Lord, and in the strength of his might.—Ephesians 6:10.

Lesson: Judges 7:1-25.

Devotional Reading: Psalm 27:1-6.

## Explanations and Comments

1. The Pathhearted Depart, verses 1-2.—Gideon and his band were to fight against the Midianites under God's banner, and to God must be ascribed the victory. Let them should boast of having themselves defeated their enemy, their numbers must be reduced. Gideon therefore directed all who were fearful to depart, and more than two-thirds of the warriors left the camp. Possibly the men who had bragged most of what they would do to the Midianites were the very ones who were afraid when they stood on the height and looked at the encampment of the enemy spread along the opposite side of the valley. The Crusaders who were the boldest in the council-chamber were the first to cry, "Save our souls!" (Get him who can save himself.)

When God needs men for His work he chooses the weak and despised. When the bugle sounds the martial note, some one has observed, there are many in the Church who suddenly remember an engagement that prevents them joining in the battle. The proportion of cowards at Gideon turned out to be two in three. Would it be as low in moral battles of today?

George E. Pike, who helped to found Juneau, Alaska, died recently at Eagle on the Yukon.

## In the Stable

Minard's is valuable for strains, bruises, cuts, swellings.

## Mothers Prefer It

Because they know it is safe and sure, and the children like to take it.

Dependable Chamberlain's Cough Remedy for Croup. No Narcotics—25c and 50c.

THE NEW FRENCH REMEDY. It is the most powerful and effective remedy for Coughs, Croup, Whooping Cough, Bronchitis, Asthma, and all respiratory ailments. It is sold by all druggists and grocers.

## CUSTOMS PROBE IS REOPENED IN THE EAST

Ottawa.—Customs appraisers whose duty it is to place a value on goods imported into the Dominion sometimes make mistakes. Before the customs royal commission, which resumed sitting here, R. L. Calder, K.C., one of the commission members, stated that an importation of very valuable antique furniture entering the port of Montreal had been appraised as "second-hand furniture and estate as such" by the appraiser through whose hands it passed. Evidence taken before the parliamentary committee last session had shown that some of the appraisers were absolutely without qualifications for their work, Mr. Calder said.

Counsel mentioned these matters when J. A. Watson, Dominion appraiser, was on the witness stand before the commission. Both Mr. Watson and his assistant, Edward Richards, informed the commission that they were not consulted in any way officially as to the choice of appraisers at points outside Ottawa. Customs appraisers generally became such by promotion, Mr. Richards thought, but he and Mr. Watson agreed that the civil service commission was the body which would probably tell the commission about the matter.

Resumption of the hearing this morning was preceded with an expression of regret from Chairman J. T. Brown that Sir Francis Lomax had retired from the chairmanship of the commission. It was announced that after the Ottawa sitting, the commission will proceed to Vancouver.

A statement was submitted covering the number of train seizures at various points in Canada from 1922 to date. The largest number was made at Windsor, Ont., numbering 465. Next came St. John's, N.S., 371; Montreal, 356; Vancouver, 237. Mr. Rowell explained that these were made from trains, which accounted for the large number made at some comparatively small places.

## London Firm Insures Turkish Cruiser

Is Ship That Declies Turkey to Join Germany in a War.

London.—There is a flavor of irony in the fact, says The Daily Mail, that insurance of about \$5,000,000 has been placed with Lloyds, London, against risks of damage to the Turkish cruiser Sultan Yavuz Selim, formerly the German Goeben, which is being lifted into dock at Goldjyk, near Constantinople, for repairs by German engineers. Early in the war, the Goeben, then belonging to Germany, arrived in Constantinople after a spectacular escape from British pursuers in the Mediterranean. The arrival of the Goeben through the Dardanelles was one of the factors leading Turkey to join Germany instead of the allies in the war.

## Northern Branch Line May Be Extended

Would Form Junction in Manitoba With H. B. Railway

Winnipeg.—Extension of the Canadian National branch line at Gimingham, Man., to Grand Rapids, on the Saskatchewan River, was promised by Sir Henry Thornton on condition that the undertaking can be shown to be profitable, according to a delegation that waited on the C.N.R. president here.

The proposed extension would form a junction with the Hudson's Bay Railway. The delegation was composed of Mayor R. H. Webb, of Winnipeg, representative of the On-to-the-Hudson Association and officials of other Manitoba organizations.

### Report On Land Settlement

London.—A lengthy report on land settlement is in the course of preparation by the Overseas Settlement commission of the Imperial conference. The report reviews the situation throughout the Empire and the steps taken by the different Dominions in connection with migration.

W. N. U. 1666

## West Captures Prizes

Championships Won in Competition With Best Cattle on American Continent

Toronto.—Stepping out in international company representing the cream of the cattle on the American continent, five head of Saskatchewan cattle won two championships, two first, one third, one fourth and one fifth prize at the Royal Winter Fair here today.

Two Aberdeen Angus calves, shown by W. J. F. Warren, Belbeche, scored a triumph for their owner, "Black Monarch," 11-month-old bull calf, captured first place in the junior championship and reserve grand championship in succession, while "Miss Quality of Belbeche" gained exactly similar honors in the female Aberdeen Angus classes for Mr. Warren.

G. K. Altonby, Crossfield, Alta., walked off with the junior bull calf championship in dual purpose Shorthorns as well as the reserve grand championship.

Alberta made a killing in the Herefords, O. A. Boggs, Dayland, taking the male and female grand championships and both the senior champion ships, while Frank Collicutt, Crossfield, won the junior bull and reserve senior championships in female classes. These two men made a clean-up in the Hereford classes, capturing, in addition to championship ribbons, several premier and other prizes.

H. Hyalor and Son, Killarney, Man., also made a good showing in Herefords.

## France Planning To Cut Standing Army

Bills Call for Reduction From 650,000 to 400,000 Men

Paris.—Reduction of the total number of men under arms in France from 650,000 to 400,000 is called for in three bills which will be introduced in the Chamber of Deputies. The measures also call for a reduction in the period of compulsory military service from eighteen to twelve months.

The bills, which will be introduced by Minister of War Painleve, provide for the calling of conscripts at the age of 21 instead of at 20 and for the recruiting of volunteers numbering more than 100,000. The volunteers will receive the conscripts from "fatigue details" under this system the young soldiers will devote their entire year's training to purely military instruction.

The contingents of conscripts will be called up in half yearly sections in order to insure the presence under the flag of half the entire army with at least six months' training.

M. Painleve estimates that the new law will increase the expenditures of the War Department at the beginning, but he proposes to make up the additional sums needed from the sale and liquidation of idle property of the Department of War.

## Young People Protest

Youth of Ontario Say They Are Progressing Along the Right Lines

Toronto.—A resolution repudiating "the propaganda carried on by those interested in the return of the free sale of liquor which has represented the young people of this province, in most unfortunate terms," and calling for wholehearted support of the Ontario Temperance Act, were the tangible results of three meetings held here where 7,000 young people from Toronto and district attended.

Passing of the resolution followed addresses by several young men and women prominent in university and other circles in Toronto. At each meeting the speakers stressed the contention that young people were not going to the "bow-wow" as some people thought—but were progressing along the right lines.

### Conference Is Success

London.—"The Imperial Conference has not been doing much to attract publicity," said Lt.-Col. L. C. Amery, secretary of state for Dominion Affairs, in a speech here, "but from the point of view of mutual understanding it has been the most successful of all the Imperial conferences." Colonel Amery said he thought the amount of practical work accomplished by the various committees of the conference was greater than at any previous gathering of the members of the Empire.

## PREMIERS ARE SHOWN BRITAIN'S LARGEST AIRSHIP

London.—The Dominion Premiers at Cardington inspected the structure of the new airship which is to bring Canada within two and a half days of London, as referred to by Sir Samuel Hoare, head of the British air ministry, at the Imperial Conference about three weeks ago.

The structural work on the ship so far has only advanced sufficiently to give an idea of its immense size. Nearby was R33, the military airship which flew above the German fleet when it surrendered on the conclusion of the armistice. Great as the R33 appeared it could pass within the framework of R101, the airship now under construction.

The R101, with a sister ship, will have accommodation for 100 passengers each and their baggage and 10 tons of mail matter. They will each have sleeping quarters of two four berths, promenade decks, lounge, smoking rooms and dining rooms capable of seating 50 people at one time.

For the benefit of the visitors, R33 was taken from its shed and it made an ascent.

Premier Mackenzie King has already indicated the intention of the Canadian Government to proceed with the erection of a mooring mast in Canada for the reception of airships.

## Airplanes Come To Aid Of Passengers

Drop Food For People Stranded on Desert Near Bagdad

London.—Pilots of the Royal Air Force have been engaged in dropping dates and other foods for stranded passengers in the cross-desert motor car service between Beirut and Bagdad, says a dispatch to The Daily Mail from Bagdad. The distance of the cross-desert route is nearly 600 miles.

Many cars have been stuck fast for more than seven days in a sea of mud caused by an exceptional rainfall. The Basra-Bagdad Railroad has been washed out at several places, and a number of houses in Bagdad have collapsed.

### B.C. Chooses Rhodes Scholar

Vancouver.—Robert E. Grauer, 25, a '25 graduate of the University of British Columbia, who is now attending the University of California, was chosen as British Columbia's Rhodes Scholar to take up residence at Oxford University in October, 1927, by the selection committee for this province. Grauer was a member of the U.B.C. basketball team which participated in the finals for the Canadian championship at Ottawa.

## He'd Rather Dodge a Bear Than a Motor

Col. Moore giving advice on a mountain journey to a fair visitor at Banff.

An encounter with a grizzly in the heart of the Canadian Pacific Rockies is a tame experience compared with dodging through traffic in Montreal, according to Col. Phil A. Moore, pioneer guide of Banff, Alberta, who arrived at Windsor Station, Montreal, over C.P.R. lines recently.

But of course, Col. Moore feels differently about bears and other wild animals than most people do. He knows them intimately, and has made a careful study of their habits and dis-

## To Ratify G.T.P. Payment

Will Bring Down Legislation to Give Effect to Arrangement

Ottawa.—Hon. C. A. Dunning, Minister of Railways and Canals, announced that it is the intention of the federal government to bring down legislation at the December session of Parliament to give effect to the arrangement which was reached in London in September last by representatives of the Canadian National Railways and the holders of Grand Trunk Pacific four per cent debenture stock, over the payment of interest. There has been difficulty and dispute since the Grand Trunk Pacific was thrown into receivership in 1919 by the action of the former management. Advances received from London indicate that already the holders of more than \$4 per cent of the issue outstanding have accepted the arrangements. On this side, the scheme of arrangement requires to be ratified by Parliament.

## No British Envoys

Will Be Appointed

Government Not Likely to Send Ministers to Dominions

Ottawa.—A cabled press report from London intimating that the British Government may appoint ministers in each of the Dominions is not accepted here in Government circles as at all likely. It is understood that in the official despatches reaching this country from the conference there has been no indication of such a step and it is thought to be doubtful if any such plan has been entertained. A further report stating that the Prime Minister of the Dominions have declined to participate in the Locarno pact is not regarded as official. Premier Bruce of Australia recently stated publicly that he was in favor of the adoption of the Locarno agreement by the Commonwealth.

## Will Not Enforce Restrictions

From Crossing Line

Washington.—Officials of the Department of Labor, which has control over immigration matters stated that while restrictions on persons who live in Canada and cross the border daily to work in the United States will be gradually tightened, no wholesale action is contemplated.

Immigration officials realize that enforcement of any such policy would cause strong protest, not only from Canadian workers but from some United States citizens who live across the border.

### Lady Willingdon Heads Red Cross

Toronto.—Following a visit by Viscountess Willingdon to the Red Cross national and provincial offices, it was announced that Sir Robert Borden is retiring as president of the Canadian Red Cross Society and that her excellency has accepted the office.

## THE STATUS OF DOMINIONS TO BE DETERMINED

London.—In connection with discussions by the Imperial conference committee on inter-Empire relations there is a proposal to widen the powers of the high commissioners of the various Dominions and give them semi-diplomatic functions. So far, however, the matter is in abeyance.

The conference resolution with reference to the Locarno treaties as previously indicated will be confined to it is expected, to an expression of appreciation of the Locarno spirit and the work done by Sir Austen Chamberlain, foreign secretary, in promoting peace in Europe, but it will not imply acceptance of the treaties by the Dominions. On this point, it is understood there has been a division of opinion among the Dominion delegates, while the resolution calling for the formal adhesion of the Dominions to the treaties is not being pressed.

The proposed statement on the constitution of the Empire, on which the premiers' committee on inter-Empire relations has been working, is now taking definite shape. The statement, it is believed, will do the following:

- 1.—Define more clearly than at present the status of the Dominions in the Empire.
- 2.—Recognize Dominion autonomy, not only in purely domestic matters but also in questions of foreign policy primarily concerning such Dominion.

The premiers' committee of the Imperial Conference has not yet concluded its work, and some changes may yet be made in the statement outlined above.

Among the Canadian delegation there was evident a feeling of satisfaction at the way things are progressing at the conference. "We have every reason to be pleased," said one influential member of the delegation. "We did not, of course, get everything we should like but we made a greater advance even than we expected."

Among the Canadian delegation there was evident a feeling of satisfaction at the way things are progressing at the conference.

"We have every reason to be pleased," said one influential member of the delegation. "We did not, of course, get everything we should like but we made a greater advance even than we expected."

## Says Canada Is Prosperous

President of Canadian Bankers' Association Reviews Financial Situation

Montreal.—A comprehensive review of the business and financial situation in this country the past year, and the factors leading to the general improvement which has taken place, were contained in the address by G. E. Neill, president of the Canadian Bankers' Association and general manager of the Royal Bank of Canada, who told a tale of prosperity at the annual general meeting of that body held in Montreal. Mr. Neill stated that the wave of prosperity was reflected in a pronounced improvement in the banking situation in the Dominion and also dealt at some length with the return of this country to the gold standard, which was accomplished without any stress or strain whatsoever.

Not in agriculture alone is found evidence of Canada's prosperity, stated Mr. Neill, who added that railroad earnings are satisfactory, building was most active during the past year, newspaper production has exceeded that of the United States, automobile production and export were at record level and that generally various lines of manufacture show satisfactory growth.

## Union Jack Painted On British Vessels

Plan to Protect Ships Plying in Chinese Waters

Shanghai.—In an effort to prevent their being attacked by the Chinese militia along the Yangtze river, many British vessels plying in Chinese waters are having the Union Jack painted on their sides. Shippers hope this will make firing on them or commandeering them infeasible. The recent strike is reported to have been completely broken. All strikers have been summarily dismissed and new crews employed.

Toronto.—A special Washington dispatch in the Toronto Globe says: "The status of Sir Hugh Denison, Australian high commissioner to the United States is to be changed to that of minister within three months time, according to information gained in an authoritative quarter."

### Incredible Value.

Reports from all provinces indicate that the Family Herald and Weekly Star at the price of \$1 a year, is sweeping the country.

At the price of \$1 a year, this big weekly journal is the marvel of the newspaper world. Notwithstanding the reduction in price (from \$2 to \$1) every big feature of this great newspaper has been faithfully maintained, and the publishers are ever watchful for opportunities to make improvements.

When one takes into consideration the huge volume, wide variety and high quality of the reading matter in every issue of the Family Herald, the question uppermost in the reader's mind is, "how can it be produced at the price?" It is a combination of a complete farm journal, family magazine and weekly newspaper—at a cost of less than TWO CENTS weekly.

Winter is rapidly approaching. For this coming winter's reading there is no better combination than your own local paper and the Family Herald and Weekly Star. Subscriptions may be left at The Sun Office.

### WHY SUFFER WITH HEADACHES?

Why not have your eyes attended to now, before it is too late?

My prices are fully 25 p. c. cheaper than elsewhere, as I buy vast quantities direct from the factories.

### Taxis in Foreign Lands Need No Speed Limit

(1) Still in use as in the time of Balaam the Prophet.  
(2) The Peking cart, a very popular mode of conveyance.  
(3) The camel-car of India, oldest taxi of all.  
(4) The world-famous Jirikakha of Japan.

Imagine our modern cities without taxis, or worse still without a speed limit! One is accustomed to step into a taxi and run... a destination many blocks or miles away in the space of a few moments, yet within a speed limit or all would be chaotic confusion with taxis running wild through the cities. Taxis and speed are two words synonymous in the United States and elsewhere. There are, however, many countries, especially in the immortal East—which use conveyances answering the same purpose for which no speed limit is needed, they move along in the leisurely way of the Orient, and yet meet the requirements of people in those ancient lands.

The sedan chair, said to be named from Sedan, France, where it was first made or used, is used extensively in China. It is made for carrying a single person and is usually borne on poles by two men. In Hong Kong

rickshas are also used on the lower levels of the city, but the sedan chairs are used on the hills.

The Jirikakha of Japan, is the nearest approach to a taxi, for this thing that at times nearly hovers one over, is the man-taxi of the East, the rubber-tired, brass-lamped, white cushioned vehicle.

Possibly Peking has the greatest collection of strange foreign taxis of any city. Through the Chien Men—the front door of Peking, come strings of double-bumped, long-haired Bactrian camels from the Gobi Desert, bringing the very breath of the desert with them and all the mystery of the Mongolian wastes. The next vehicle that may enter the Chien Men—the mouth of that fabled dragon whose eyes are two of the other nine gates, and whose body is the breathing city itself, is the Peking cart. This is drawn by a

little grey donkey, with a string of clear ringing bells. This is a small compact two-wheeled springless conveyance covered in blue and it is sometimes drawn by mules arrayed in silver harnesses. A similar conveyance is also favoured by the Japanese who call it a "sado".

The camel-car of India is about the oddest looking taxi of them all, and it never breaks the speed limit. Camel-back, too, is a very popular mode of transportation and not too bad for short distances. The native women, also, play the part of taxis in India, and the sight of them strapping large suit cases on their backs and starting off for hotels at a fair rate of speed is just one of the unusual things which passengers on the Canadian Pacific liner Empress of Scotland will see, on the Round the World Cruise this winter, which leaves New York on December 2 and returns on April 12.

## Won Fortune From Kaiser

Widow Broke Will Which Left Wealth

to German Ruler.

During the war the ex-Kaiser of Germany just missed adding another million to his fortune by an adverse decision of the Dresden High Court. A wealthy Saxon died and left the greater part of his wealth to Wilhelm II, the will leaving his widow almost penniless.

The widow asked the ex-Kaiser to renounce the legacy in her favor, and on his refusal, she brought an action to have the will declared illegal. The court decided in her favor, and awarded her the big sum her husband had willed to the ex-Kaiser.

## Sun Keeps Earth Going

If the earth were taken away from the sun for a year the ocean would not only be frozen, but the atmosphere would be condensed to liquid air, washing only the dry rocks of a frozen sea, in the opinion of Professor H. N. Russell, of Princeton.

CHAPTER XX.  
In Eggleston's Home

A butler, the ancient one whose years seemed to identify him with the old house, brought her in that Mr. Eggleston would join them shortly, if they would be pleased to wait. Brandon, when the old man had disappeared noiselessly, held out his cigarette case to Joanna. She shook her head.

"No, not in here," she said. "Somehow, it doesn't seem as if—, as if one smoked in this house, does it?"

"That is a curious feeling," he observed. "I don't imagine my mother would smoke in this house, but I fancy he is not used to them. Surely you would not adopt a pose of innocence of them because of a visionary regard for your banker's tastes?"

"No," she replied. "I wouldn't do that. But just the same, I don't want to smoke."

She moved away from the table and to a window. Brandon, eyeing her closely, saw that as she crossed the room her glance fell again on the painting over the fireplace. She looked from the window out into the avenue, for a minute or two, then turned suddenly and went directly up to the fireplace. The action was as if in response to some occult summons from the girl who looked down so serenely from the canvas.

## THIS MOTHER GLAD DAUGHTER IS WELL

Mrs. Parks Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Daughter's Health

Toronto, Ontario.—"My daughter is 16 now and has been an invalid ever since she was six months old and has been compelled to remain out of school the greater part of the time. We have tried different kinds of medicine, but none helped her much. I have taken Lydia E. Pinkham's Vegetable Compound and it has helped me so much that I thought it might help her at this time. She has gained ever since she began taking it. She attends school every day now and goes skating and does her out-of-door sports. I recommend this medicine to any one who is run-down and nervous and weak."—Mrs. Parks, 106 Bond Street, Toronto, Ontario.

Lydia E. Pinkham's Vegetable Compound is a dependable medicine for young women's troubles.

## Children's Colds

Are best treated instantly with Vicks VapoRus.

his head. Eggleston stood, quietly, his head lowered a bit so that his study of the girl at the fireplace, whose back was partly turned to him, had the effect of an inner as well as outward scrutiny.

Suddenly, as if she were startled, Joanna wheeled and met the banker's stare. A hand fluttered nervously to her breast. For a brief moment she trembled, as if frightened. "I know—that you were watching me!" she breathed.

Brandon dropped his book.

"The atmosphere is charged," he remarked dryly. "I am confronted with moods. Miss Manners refuses to smoke despite the fact that on our way here she stopped to buy a charmingly expensive holder ornamented with emeralds. She found the room too forbidding. Now my uncle is mysteriously deflected. To Eggleston he confided: 'I hope your luncheon is not to be a heavy affair.' Joanna was confused. She wanted to refute that accusation that it was the house of her host that oppressed her."

Eggleston resumed her with a stiff, formal greeting that ignored Brandon's allusions.

Joanna made a valiant effort to throw off the shyness that constantly threatened her in the presence of the great banker who knew the secret of her mystery. She knew, instinctively, that she had not been asked to visit him, at his home, without some very definite reason. But whatever this reason might be, she was convinced that it, also, would be kept from her. Eggleston's phrases were formal, cold; yet, now and then, she was sure she detected something in his manner—that was quite all that she could determine about it, that it was, simply, "something." As yet the mind of Miss Twenty-seven had not become expertly sharp.

"I understand," the banker said, when they had taken their places at the table in a massive dining room—a room as sombre as the library which throned the girl of the painting—"that you were definitely launched last night, and that you were quite a success. That is what my nephew, here, has given me to understand."

"It was glorious!" Joanna agreed. "Miss Coutant is very good to me."

"You have not, then, formed any substantial ambitions. You are the trustee of a fortune. I am interested in your immediate future."

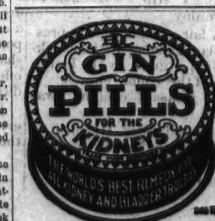

Joanna looked up quickly. "I should be willing to follow any instruction you give me," she said, quietly. "If you give me none, I can do nothing else but enjoy myself according to my inclination. I have always wanted little things that I couldn't have. Now that I may have the big ones that are better, I shall simply have them—that's all I can do, it seems."

"As your banker," Eggleston returned, "you must give me my instructions."

Joanna looked at him, and then, as if by a sudden impulse, she said: "I have always wanted little things that I couldn't have. Now that I may have the big ones that are better, I shall simply have them—that's all I can do, it seems."

Joanna was watching her furtively. She felt the need of a defense, but, instead, plunged into an offensive.

"If I am going to spend a great deal of money," she said, "there are so many things to buy, and money doesn't seem to count for much in Miss Coutant's world." She was silent for a moment, then asked suddenly:

"How far does a million dollars go, Mr. Eggleston?"

"Not very far," he replied, "when entrusted to the three companions, Vanity, Extravagance, and Desire. They, I believe are the chief advisers of the young women of this day."

"Are they?" Joanna asked earnestly. "I have always found that my chief friends were Misunderstanding, Distrust and Envy."

A great modern banker, a despot whose whim echoed as thunder through the marts of finance, and a modern, younger man, whose pastime was the baffling of feminine artifice, looked across their table into the fresh, young, modern face of a girl who was just blossoming out from Miss Twenty-seven of the silks. The banker remembered, strangely, a vision of glaring legs and flamboyant rouge that came awkwardly through his office door with the aid of one who was being trapped. Brandon remembered the girl who had "no place to go," except to her silk curtain or her rooming house. And Joanna understood why they looked at her.

(To Be Continued).

## Drives Out Rheumatism Subdues Lumbago

Brings Ease and Comfort to the Sufferer at Once

## NERVINE

A King Over Pain

Those who seek permanent relief from the grinding pain of Rheumatism and Lumbago should read the letter of F. E. Normand, from Georgetown, who writes:

"I was fairly crippled with aching joints and Rheumatism. Nervine helped me. I used it until I needed, because it cleared up my trouble quickly."

"If you need a reliable, strong, penetrating pain remedy, one you can depend on, get a 35c bottle of Nervine to-day; it will make you well quickly."

## Talks Without Vocal Cords

Lieut.-Col. Artiste Moreno, of Washington, is learning to talk without vocal cords. An operation about two years ago necessitated removal of the cords, and surgeons predicted that he would be unable to talk. Now he is able to talk understandably, though he must enunciate very slowly.

## IS THERE A BABY IN YOUR HOME?

Is there a baby or young children in your home? If there is you should not be without a box of Baby's Own Tablets. Childhood ailments come quickly and means should always be at hand to promptly fight them. Baby's Own Tablets are the ideal home remedy. They regulate the bowels, sweeten the stomach, banish constipation and indigestion, break up colds and simple fevers—in fact they remove all the little ills of little ones. Concerning them Mrs. Maise Caldwell Mahanik, Que., writes: "Baby's Own Tablets are the best remedy in the world for little ones. My baby suffered terribly from indigestion and vomiting, but the Tablets soon set her right and now she is in perfect health. The Tablets are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont."

## Teeming With Life

The amount of life found to exist in a quarter of a square mile of tropical jungle in British Guiana is almost incredible. In a square yard of soil 1,000 different forms of insect life were found.

Miller's Worm Powders work so effectively that no traces of worms can be found. The pests pass away in the stool and without being perceptible. They make an entire and clean sweep of the intestines, and nothing in the shape of a worm can find lodgment there when these powders are in operation. Nothing could be more thorough or desirable than their action.

## To Protect Travellers

Machine Guns Mounted on Trains in Mexico

Machine guns are mounted on trains leaving the international boundary between Arizona and Mexico, to protect travellers from the depredations of rebellious factions in interior Mexico. A military escort on the trains have been doubled from 50 to 100 men on each train. The machine guns are set in place at both ends of the carrier.

These precautions, say military chiefs at Nogales, Sonora, are taken because of the activity of Yaqui Indian bands in Sonora.

After Shaving—Minard's Unimant.

## OUT OF 83

cases ended in death! So a recent Canadian investigation showed. These were not cases of infectious diseases—of consumption—of typhoid. They were cases where a person had sustained some slight injury—a cut, a burn, a wire-pick—and where the wound, being thought not serious enough for careful treatment, had been neglected. Blood-poisoning and death resulted.

When you or your children sustain any injury, ensure against infection by applying Zam-Buk. This balm soothes the pain, stops bleeding, and by destroying all germs prevents blood-poisoning, etc. Hence no time need be lost from work or pleasure by those who use Zam-Buk. All dealers, 50c. box.

## Zam-Buk

## Little Helps For This Week

He that hath no rule over his own spirit is like a city that is broken down and without walls.—Prov. xxv. 28.

Real glory Springs from the quiet conquest—of ourselves. And without that the conqueror is nothing. Use your mind, but not your tongue. —Thomson.

Rest not in an ovation, but in a triumph over thy passions. Let anger hang down like the head; let malice go manacled and envy fettered after thee. Behold within thee the whole train of thy troubles, not without thee. Chain up the unruly legion of thy breast, lead thine own captivity captive, and be Caesar within thyself. —Sir Thomas Browne.

"Simple and Satisfying"—Dr. Thomas' Electric Oil is so simple in application that a child can understand the instructions. Used in this manner, the only direction is to rub, and when used as a dressing to apply. The directions are so plain and unmistakable that they are readily understood by young or old.

She—"Oh, Doctor, I'm so anxious about Mrs. Smythe. She is in your hands, is she not?" Doctor—"She was, but I'm not attending her now." She—"Ah, then she is out of danger!" —London Humorist.

Be sure of your fattest calf before essaying the role of the prodigal son.

**Free Government Pamphlet Reveals HOW TO GET MORE MONEY FROM HOGS**

How to avoid breeding short, thick pigs, and how to develop those of a suitable breed that have to feed a few to prevent her deteriorating her little brood of hogs. How to avoid the loss of two good litters each year by taking the best bred sows—these are just a few of the hints given in the free pamphlet "Breeding and Feeding the Market Hog" issued by the Department of Agriculture, Ottawa. It will save you a lot. Use the form below.

**"The Grading and Marking of Eggs"**

Another helpful pamphlet. Tells the law relative to grading, inspecting, labeling, etc. Every poultry farmer should get this. These are free government pamphlets on all the different subjects of Agriculture. Write for the list of these publications. Fill in and mail this coupon FREE.

In recognition of his excellent work among his compatriots in western Canada and as a consequence to the French speaking element west of the Great Lakes, Mr. Alphonse Brasseur has been appointed travelling Passenger Agent of the Canadian National Railways, with headquarters in Winnipeg, and he will be detailed to the special duty of caring for the passenger traffic requirements of the French Canadians of the west. For several years Mr. Brasseur has acted as a liaison officer between the company and the French Canadians and he was prominent in organizing the Franco-Canadian Tour from the west to the special St. Anne de Beauséjour last December, the largest single party of French Canadians ever to travel from western Canada to Quebec, and one of the largest individual passenger movements in the history of the railroad. He also assisted to organize the western delegation to the Eucharistic Congress at Chicago last year and he personally conducted the pilgrimages. His popularity among his compatriots is attested to by the formal addresses of confidence and gratitude which have been presented to him by all of the parties whose traffic

MR. ALPHONSE BRASSEUR

requirements he has undertaken to satisfy. Mr. Brasseur is of French parentage and he speaks French and English with equal facility. In choosing him for this important post the Canadian National Railways are adhering to a policy characteristic of Sir Henry Thornton's regime, namely, to appoint French Canadians to posts having to do with the French speaking population. In selecting Mr. Brasseur for this important work the company has chosen a man who, to an engaging personality and the qualities already mentioned, is able to add many years of varied experience in railroad work. Mr. Brasseur was born in Ottawa on October 14th, 1883, the son of Paul Brasseur, for more than 20 years a railroad man himself. He was educated at Ottawa University and in 1901 he went to Toronto to commence his railroad career in the Baggage Department of the Toronto Terminal Company. He occupied various positions there until 1912, when he removed to Edmonton to join the staff of the Grand Trunk Pacific as Train Agent. In 1921 he was transferred to Winnipeg where he was Ticket Collector until 1925, when he became Terminal Passenger Agent, a position he has held since.

## Bird Game Licenses, Big Game Licenses

and Trappers' Licenses

Can be had at Stony Plain Sun Office.

### Stony Plain and District.

On Tuesday Nov. 16, to the wife of Mr. John Goetsinger, a son.

In Stony Plain, on Tuesday Nov. 23, to the wife of Mr. August Meredith, a son.

Today is Thanksgiving day across the line. Radio fans with good receiving sets ought to pick up some good programs this evening.

Young Val Pailer is now pursuing his studies at the Technical school, Edmonton.

Mr. G. W. Gleason, of Cedar Rapids, Ia., who was thru this district last spring looking for a location, returned last week, and has settled in Graminia district.

Mr. J. A. Duval, the well-known Holborn farmer, is holding a sale of his goods and effects Tuesday Nov. 30.

Mr. Louie Adolph had a very successful sale Tuesday last, at his farm at Golden Spike. Louie is moving to Edmonton with his family, to reside.

Mr. Fred Gabel of Garden Valley has been successful in getting a new supply of water on his place, at a depth of 385 feet. The well is now pumping 180 gallons of soft water per hour. The work was performed by M. Shellenburger.

Big game license holders will note they are required to return their license to the Game Commissioner, with the certificate on the back filled in. Particulars at Sun Office.

Mr. D. Maisemko reports big game rather scarce at Glory Hills. Danyz was out for a night and day this week, and all he brought back was a headache and 2 rabbits.

Whist Drive, Friday Nov. 26, given by Holborn U.F.W.A.; also guessing contest for home-made quilt; 9 p.m. sharp; radio music; everybody welcome.

M. M. Mecklenburg, the well-known optical specialist, will be at the Royal Hotel, Stony Plain, on Monday Dec. 27th; and at Dunfield Tuesday Dec. 28. See him and see good.

### Calendar.

- November—
- 26—Walther League concert in Stony.
- 26—U. F. A. dance at Holborn Hall.
- 30—J. A. Duval's auction sale.
- December—
- 3—Inga Councillors meet.
- 4—U. F. A. Local meets.
- 11—Secretary Pigeon at Stony Plain.

### Walther League Calendar.

- November—
- 26—Entertainment for Public.
- December—
- Wheat Ridge Sanatorium
- 12—Social evening
- Christmas boxes and a merry Christmas
- 26—Christmas Party.
- 29—Business meeting.

### Spruce Grove News

Butcher McKee made a business trip to Edmonton yesterday.

A fair attendance was present last evening at the chicken supper given by the Ladies Aid of the Union church. A very pleasant evening was spent.

Mr. and Mrs. Heichen of Stony Plain visited on Sunday with Mr. and Mrs. Herman Loeblich.

### Stony Plain and District.

Mrs. J. Smith was called to Calgary on Monday, where her mother lies dangerously ill.

A meeting of hockey players and supporters was held Saturday in the Town Hall, with Mr. J. Miller in the chair, when a reorganisation of the club for the season was accomplished. A representative of the town council was present. When sufficient guarantees have been put up by the hockey club, it is understood the management of the present rink will be turned over to the club. A membership committee was appointed and this is at work now.

With a hockey team from Walther League, a team from Spruce Grove, and Stony's bunch, we should see some good sport this season.

The marriage took place on Sunday last, Nov. 21, at the Ruthenian Greek Catholic church, Carvel, of Miss Nancy Chomey (daughter of Mr. and Mrs. Nick Chomey, Carvel) to Mr. Anton Tyrkalo of Blueberry. The ceremony was performed by the Rev. Waayl Ladeka, pastor, and the edifice was filled during the ceremony by relatives and acquaintances of the contracting parties. Following the church service, a reception was held at the home of the bride's parents, where feasting and dancing was the order of the day (and night). A large number were present.

Mr. Geo. Campbell, P.M. at Graminia, left this week on a three-months' trip to the Coast.

Wohlsin! Rat apples! Get 'em at Hardwick's.

### Poppy Day 1926

Mrs. S. M. Elliot, Stony Plain—

Dear Madam—I am obliged by receipt of your letter of 8th, enclosing remittance of \$46.50 in payment of poppies. We take this opportunity of thanking you sincerely for your able assistance in this campaign. —A. Wakelyn, Provincial Secretary.

The above is a copy of the receipt from the British Empire Service League. As you see, we were able to send a sum of \$46.50 to the fund in spite of a wet Saturday.

From the number of questions asked our helpers I feel I must again state the use of this fund.

The poppies are made entirely by disabled men. The money is required to assist the families and dependents of men who were killed in the Great War, and also to provide funeral expenses for those who die as a result of injuries received overseas.

If all the assistance needed was to be taken from government funds alone, the taxes would have to be raised to provide for the additional calls.

Besides this, we folk who are whole must feel that such a small sum as the cost of a poppy is very little as our share in assisting those who offered everything during the dire years 1914-18.

I wish here to thank everyone who so ably assisted the cause Nov. 5 & 6.

Isabel M. Elliot,  
Local organiser.

### Here and There

Philadelphia—The silver cup for the best display of poultry at the Sequential Poultry Show was won by the Hon. John S. Martin, Ontario Minister of Agriculture.

A newly constructed line of the Canadian Pacific Railway between Unwin and Lloydminster in the Province of Saskatchewan is now in operation. This line 30.9 miles in length will greatly assist the farmers of the district in marketing their grain.

Ripe plums are now being sent to England, arriving there in prime condition. The Ontario Department of Agriculture reports having made a trial shipment with excellent results, as attested by word from the other side. The plums were picked ripe and fully colored.

Vancouver—The largest shipment of tree seeds ever made within the British Empire was that of 3,200 lbs. of yellow pine seed sent from New Westminster to New Zealand by the Dominion Government seed extraction plant at the former place. A further cargo of 2,500 lbs. of seed is to follow shortly. This seed will be planted on waste lands in New Zealand.

Quebec—The Canadian Pacific Railway has decided to add three hundred rooms to its famous hotel, the Chateau Frontenac, and to meet the requirements has taken options on a number of properties near the present buildings. Through the construction of the proposed new wing the Chateau Frontenac will probably become the largest hotel in the British Empire, having some 1,200 rooms.

Christmas travel from Canada to the Old Country is expected to be exceedingly heavy this year over the C.P.R. lines and by the Canadian Pacific lines. High wheat prices, and good crops are given as the causes for this exodus. The rush will be inaugurated virtually by the sailing of the C.P.R. liner Montreal on December 7, for which a special train will be run to ship side at Saint John.

Recognized throughout the West as two of the outstanding authorities on mountain transportation, James and William A. Brewster, president and general manager respectively of the Brewster Transportation Company, visited Canadian Pacific headquarters in Montreal and in an interview for the press predicted great popularity for Banff, Lake Louise and other points in the Rockies. Americans, they stated, were regarding these centres as some of the outstanding holiday resorts in existence.

A British Columbia hen, a white Leghorn, has taken the world record in egg-laying with a total of 348 eggs given in 360 days. The hen was entered by the University of British Columbia in the Dominion Experimental Farm contest extending from November 1st last year, to the same date this year. Previous egg-laying records were held by New Zealand (345 eggs per year), in 1923 and by Australia (347 eggs) in 1924. Last year the honor of establishing a record for this continent went to a hen in Puyallup, Washington, with 335 eggs laid in the year.

An excellent specimen of bull moose with an antler spread of 41 inches was secured recently in the woods of Nova Scotia by James W. Stuber, sportsman-editor of Columbus, Ohio, who headed an expedition into Nova Scotia for the purpose of securing exhibits for the Ohio State Museum. In reporting on his trip at the tourist department of the Canadian Pacific Railway in Montreal, where details of the expedition were arranged, Mr. Stuber stated that, according to guide and trapper residents in the district where the moose was killed, it was one of the finest specimens taken out in years.
